

Acknowledgements

The Safari West Wildlife Foundation would like to thank the following individuals for lending their assistance, talents and time toward the development of this educational program. We could not succeed without dedicated people like you. Thank you.

Adrian Boyer — Adrian is responsible for the exquisite photography included in this and other Safari West and Safari West Wildlife Foundation publications. He also works as a Safari West guide.

Paula Fogarty — Paula contributed her expertise in the development of many lesson plans in this book. She taught high school biology and environmental science for many years. She is now on the STRAW faculty for Students and Teachers Restoring a Watershed, an environmental non-profit organization. Additionally, she creates and sells instructional aides for biology teachers.

John Menth — John has been a volunteer at Safari West for 18 years. During that time he has served in many capacities, including as Safari West Wildlife Foundation (SWWF) board member and president. John developed the “Serengeti Pete’s Discover Africa” program, which helps schools afford field trips to Safari West. He also created “Safari West to Science,” a workshop for educators. John has overseen the development of educational materials and programs for Safari West and aligned the Safari West field trip experience with state standards for science education. He has taught science for 18 years and has a Bachelor of Science degree in Environmental Education and Master of Arts degree in Education Administration.

Peter Menth — Like his brother John, Peter has been associated with Safari West for nearly two decades as a volunteer, tour guide and educator. He has contributed to the development of the SWWF educational programs and curriculum materials. Peter received a Bachelor of Science Degree in Wildlife and Fisheries Biology from the University of California at Davis. He conducted field studies for the California Department of Fish and Game and the United States Forest Service, and then for private consulting firms. He is currently a local middle school math and science teacher for an Expeditionary Learning Program in Sonoma County

Carrie Vath — In 1996 Carrie began conducting classroom education and docent education programs with the Santa Rosa Bird Rescue Center. She came to Safari West in 1998 as a Naturalist and later worked as the Small Mammal, Avian and Reptile manager. In her capacity as Education and Activity Coordinator for Children at Safari West, Carrie has made great contributions to the success of the SWWF educational programs. She has a Bachelor of Science degree in Zoology, Minor in Anthropology, from Humboldt State University and a Master of Science degree in Interdisciplinary Ecology, with an emphasis in Primate Community Ecology, from the University of Florida. Currently completing her Ph.D., she has worked as a certified K-12 substitute teacher and as a teaching assistant for 11 courses at the university level.
